

In order to pass the **Water renewal** course the Student must:

LECTURE:

pass writing exam (more than 55% correct answers)

Details of test grades:

Correct answers: 94 – 100% grade: (5.0) A
Correct answers: 84 – 93% grade: (4.5) B+
Correct answers: 74 – 83% grade: (4.0) B
Correct answers: 66 – 73% grade: (3.5) C+
Correct answers: 56 – 65% grade: (3.0) C
Correct answers: 0 – 55% grade: (2.0) D

Students are informed at the first lecture with the teacher of the specific date for the exam.

PROJECT:

preparing the project according to the guidelines, handing in on time, discussion and defence.

LABORATORY CLASSES:

- submit 4 reports (one report on a topic must be prepared by a team of students - the members of the teams will be announced during the first class - and handing in on time),
- pass 2 tests - the test will be evaluated positively when the number of correct answers is over 55%.

Details of test grades:

Correct answers: 94 – 100% grade: (5.0) A
Correct answers: 84 – 93% grade: (4.5) B+
Correct answers: 74 – 83% grade: (4.0) B
Correct answers: 66 – 73% grade: (3.5) C+
Correct answers: 56 – 65% grade: (3.0) C
Correct answers: 0 – 55% grade: (2.0) D

The final grade – Water Renewal laboratory classes - will be the average of the two grades (for test 1 and for test 2).

Students are informed at the first meeting with the teacher of the specific dates for the preparation of the reports and both tests. Students are also informed of the possibility and deadline to improve failing grades and lower grades into higher grades.
