

## LABORATORY CLASSES:

In order to pass the INDUSTRIAL WATER TREATMENT laboratory classes the student must:

- submit 4 reports (a report on a topic must be prepared by a team of students and sent to the teacher within 5 days of completing the topic),
- pass 2 tests - the test will be evaluated positively when the number of correct answers is over 55%.

Details of test grades:

94 – 100% - A

84 – 93% - B+

74 – 83% - B

66 – 73% - C+

56 – 65% - C

0 – 55% - D

The final grade – INDUSTRIAL WATER TREATMENT laboratory classes - will be the average of the two grades (for test 1 and for test 2).

Students are informed at the first meeting with the teacher of the specific dates for the preparation of the reports and both tests. Students are also informed of the possibility and deadline to improve failing grades and lower grades into higher grades.
