

Principles of complete the course Concrete Structures II (E)

Lecture

RULES:

- cannot record
- you can't take photos
- it does not provide pdf of lecture/class, only an example project

Written exam (max 5) (two times of the exam) – (2;3;3,5;4;4,5;5)

Notes from the lecture is 0.5 higher (more then 10).

Project:

RULES:

- we do not record
- attendance is obligatory (you may not be in two classes)
- active participation in classes

The evaluation includes 4 projects of the different stages of the project :

- | | |
|-------------|-----|
| ➤ 1 project | – 5 |
| ➤ 2 project | – 5 |
| ➤ 3 project | – 5 |
| ➤ 4 project | – 5 |

Deadline for the project will be specified in the first class.

Projects are checked once, if you receive a positive grade, you cannot improve the project, if you receive a grade of 2, you can improve the project but the maximum grade will be 0.5 grades lower and with each correction, the grade decreases until you obtain a positive grade.

You cannot send drawn, pasted, etc. designs.

The student is obliged to participate in the project classes, and the unjustified absence of a minimum of 1/5 of the hours of classes results in not receiving credit for the course.

According to the regulations, classes and project last submission it's no longer until the end of June.

Theoretical material will be discussed during the lecture, you should be prepared after the lecture for the project part.

In the event of a temporary limitation in the functioning of the University, in which the conduct of lecture, project, exams will be carried out with the use of distance learning methods and techniques (MSTeams platform).

The rules for completing a course remotely are the same as the rules for completing a course in a stationary form.
