

Underground structures - rules for completing the course

lecture – written test (stationary mode) or oral discussion on MS Teams (on-line mode)

project – completion, presentation and discussion of two projects

Lecture (L). Written test consists of 32 short test questions verifying the individual learning outcomes. Every question can be estimated as 0.0-1.0 point. Test lasts about 45 minutes. The necessary condition for passing the test is to obtain:

17.0-21.1 points - sufficient (3.0);

20.2-23.3 points - sufficient plus (3.5);

23.4-26.5 points - good (4.0);

26.6-29.7 points - good plus (4.5);

29.8-32.0 points - very good (5.0).

Project (P). Completion, presentation and discussion of two projects. A prerequisite for completing two projects is to prepare a written work about lateral earth pressure and timely completion of two projects.
